

Cohance Lifesciences:

A global CDMO platform
with multi-modality expertise

Small
Molecules

Antibody Drug
Conjugates

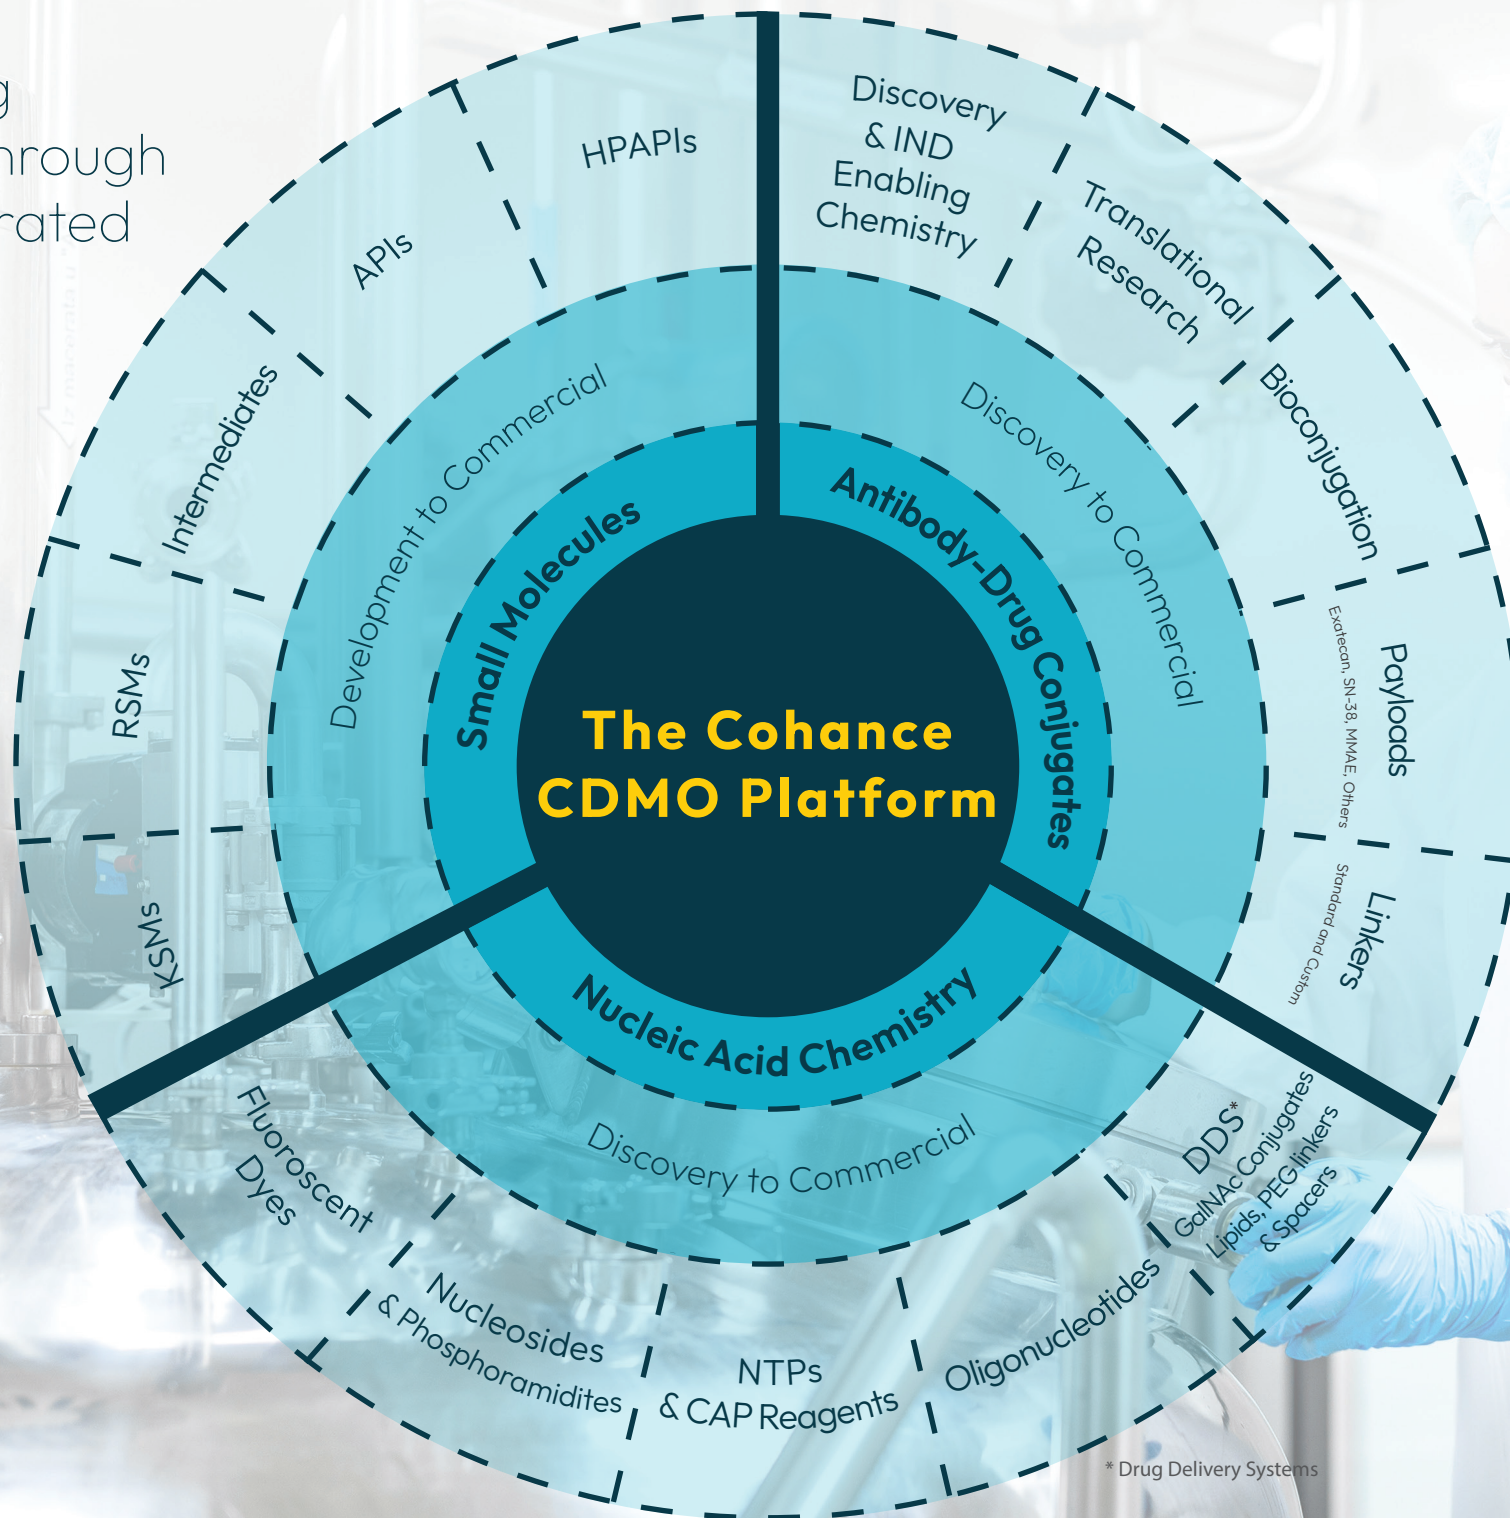

Nucleic Acid
Chemistry

Advancing Science Through One Integrated Platform

Cohance combines deep chemistry expertise, advanced development capabilities, and global manufacturing infrastructure to support pharmaceutical innovators from early development through commercialization. With capabilities spanning Small Molecules, ADCs, and Nucleic Acid Chemistry, we help customers navigate increasing molecular complexity with a single integrated partner.

Global Footprint

- Facilities in India & the USA
- 5 Dedicated CDMO Manufacturing Sites
- ADC Centre of Excellence
 - Princeton, NJ, USA
- Oligo Centre of Excellence
 - Hyderabad, India

Why Customers Choose Cohance

- Early stage to Commercial offering
- Specialized Modalities Under One Network
- Advanced Chemistry & Manufacturing
- Back-Integrated Supply Chain
- Strong Regulatory Track Record

* Drug Delivery Systems
